1 Notice for Inviting Tender

For Selection of Impact Evaluation Agency for Bringing Green Revolution in Eastern India

Krishi Bhawan, New Delhi
Dated: 12.09.2019

To,
All interested and eligible vendors

Subject: Engagement of an Agency / Organization for Impact Evaluation of Centrally Sponsored Scheme (CSS) - Bringing Green Revolution in Eastern India (BGREI)

Dear Sir/Madam,

For and on behalf of the President of India, sealed bids are invited in two (Prequalification/Technical & Financial) bids system for the subject mentioned job of the Department of Agriculture, Cooperation and Farmers Welfare, Ministry of Agriculture and Farmers Welfare, Krishi Bhawan, New Delhi for undertaking Impact Evaluation of Centrally Sponsored Scheme (CSS) of RKVY– Bringing Green Revolution in Eastern India (BGREI) implemented during the year **2015-16 to 2019- 20**. In case your firm/agency is interested in undertaking the above said studies and fulfill the eligibility criteria (refer Section 3 and 4 of the RFP), you are requested to quote your competitive prices in the prescribed Proforma contained in RFP document in a sealed cover (Technical bid and Financial bid separately and put together both in one bigger cover and sealed) along with the documents duly signed on all pages as mentioned in the RFP document in the prescribed form. The sealed cover containing the quoted tender shall be super scribed “expression of interest for impact evaluation of the Centrally Sponsored Scheme-Bringing Green Revolution in Eastern India (BGREI) be submitted by 27.09.2019 upto 04:00 p.m. and shall be submitted to **Smt. Pushpa Kain**, Under Secretary (CA-V), Department of Agriculture, Cooperation and Farmers Welfare, Room No. 585, Krishi Bhawan, New Delhi-110001.

The Ministry shall select an Agency as per the procedure described in the RFP. You may submit your proposal online at <http://eprocure.gov.in/> and hard copies of the uploaded proposals may be sent in a sealed cover, addressed to **Smt. . Pushpa Kain**, Under Secretary, CA(V), R.No. 585, Krishi Bhawan, Ministry of Agriculture & Farmers Welfare, Department of Agriculture, Cooperation & Farmers Welfare, New Delhi-110001 on or before 27.09.2019 upto 04:00 p.m. as per the attached RFP document. You may read detailed instructions for bidders before uploading the proposal online. It is mandatory for the Agency to submit proposal online within stipulated time failing which the proposal are liable to be rejected. Ministry also reserves the right to accept or reject any or all the offers without assigning any reasons thereof.

Yours faithfully,

(Smt. Pushpa Kain)
Under Secretary (CA-V),
Crops Division, DAC & FW

2 Definitions

1. **Employer or MoA & FW or Department:** The Ministry of Agriculture & Farmers Welfare who has invited bids for consultancy services with whom the selected Bidder signs the Contract for the Services and to whom the selected bidder shall provide services as per the terms and conditions and Terms of Reference (TOR) of the contract.
2. **Bidder:** Any entity or person or associations of person who have been shortlisted to submit their proposals that may provide or provides the Services to the Employer under the Contract
3. **Contract:** The Contract signed by the Parties for this assignment
4. **Project specific information:** Such part of the Instructions to Bidders used to reflect specific project and assignment conditions.
5. **Day:** Working day (Monday to Friday).
6. **Government:** Government of India
7. **Instructions to Bidders:** The document which provides short-listed Bidders with all information needed to prepare their proposals.
8. **LOI:** The Letter of Invitation being sent by Employer to the short-listed bidders.
9. **Personnel:** Professionals and support staff provided by the Bidder or by any Sub-Bidder and assigned to perform the Services or any part thereof.
10. **Proposal:** The Technical Proposal and the Financial Proposal.
11. **RFP:** The Request for Proposal prepared by the Employer for the selection of Bidders, based on the SRFP.
12. **Assignment/job/services:** The work to be performed by the Bidder pursuant to the Contract.
13. **Scope of Work (SOW):** The document included in the RFP which explains the objectives, scope of work, activities, tasks to be performed, respective responsibilities of the Employer and the Bidder, and expected results and deliverables of the Assignment/job.

19	Method of Selection	Quality cum Cost Based Selection (QCBS)
20	Work Commencement	

4 Introduction

Bringing Green Revolution to Eastern India (BGREI) program is the outcome of the recommendations of the Task Force constituted by Government of India in the pursuance of the decisions taken in the meeting of Committee of Secretaries held on 29th November, 2009 to make short and medium term recommendations for efficient management of water, power and other inputs as well as subsidy to maximize agricultural production on a sustainable basis. The Task Force was inter alia ascribed to assess the existing scenario of water resource development, utilization and management of food grain production in the country, with a particular reference to North-Western and Eastern India, taking into consideration the problems being faced due to over exploitation of water resources in the States like Punjab, Haryana and western Uttar Pradesh as well as to generate recommendations for developing infrastructure relating to water, power, marketing, storage and rural connectivity in Eastern and North- Eastern regions of the country to support agricultural production.

On the basis of the recommendations of the above committee, Hon'ble Finance Minister, in his Budget speech for the year 2010-11, announced to extend the green revolution to eastern region with active involvement of Gram Sabha and the farming family. Accordingly, the program of **“Bringing Green Revolution to Eastern India (BGREI)”** was initiated in 2010-11 which intended to address the constraints limiting the productivity of **“rice based cropping systems”** in Eastern India comprising seven (7) States namely, Assam, Bihar, Chhattisgarh, Jharkhand, Odisha, Eastern Uttar Pradesh and West Bengal. The goal of the BGREI program is to harness the water potential for enhancing rice production in Eastern India which was hitherto underutilized. As a result, needed resource endowment was not taking place in the region impacting overall agriculture production including the farmers' income.

During 2010-11, the major focus of the states was on promotion of improved crop production technologies of major crops, water harvesting measures and their utilization for overall agriculture development. In the subsequent years **2011-12** and **2012-13**, the BGREI program provided a more focused approach on medium and long term strategies for asset building activities of water conservation and utilization along with short-term strategies pertaining to transfer of technology of major cereals in BGREI districts. Accordingly, BGREI comprised three broad categories of interventions: **(i)** block demonstrations; **(ii)** asset building activities such as construction of shallow tube wells/bore wells/dug wells, pump sets, seed drills etc; and **(iii)** site specific activities for facilitating petty works such as construction/renovation of irrigation channels/electricity for agricultural purposes in a cluster approach for convenience and cost effectiveness. BGREI promoted adoption of new seed varieties, farm machines & implements, nutrients, pesticides and knowledge based intervention as developed for different agro- climatic zones.

Essentially, the objective is to increase the crop productivity by intensive cultivation through promotion of recommended agriculture technologies and package of practices. During **2013-14**, based on the experience of previous years of implementation of the program, the intervention of Marketing Support including post-harvest technology was also included. During **2014-15** also, the program continued with some modifications in cluster demonstrations and asset building interventions as per National Food Security Mission (NFSM) norms. Keeping in view the experiences gained during the implementation of the program from the last five years and also the requests of implementing States, it was thought that there was a need to modify the program in accordance with the National Food Security Mission-Rice. From the year **2015-16**, the intervention covered under BGREI are demonstrations, seed distribution, seed production incentive for newer varieties/hybrids, integrated nutrient management & pest management, asset building (dug well, bore well, shallow tube well, drum seeder, conoweeder, self-propelled transplanter, power weeder, paddy thresher etc), site specific activities, post-harvest & marketing support (godown, threshing floor, rice mini mill etc) and cropping system based trainings for farmers.

Based on the past experiences and performance of 12th Plan, it has been decided to continue the Centrally Sponsored Scheme (CSS) of Bringing Green Revolution in Eastern India (BGREI) beyond 12th Plan 2015-16 to 2019-20. The Ministries/Departments were requested to start taking appropriate action to identify, evaluation agencies, define Terms of Reference clearly and start evaluation process well in time so that complete evaluation report may be readily available before the next EFC proposals are moved for appraisal for continuation of this ongoing scheme beyond March, 2020. It was also requested to ensure that the evaluation includes performance on the output- outcome indicators of the scheme as a separate section.

It is proposed, therefore, to conduct the Impact Evaluation of the program for assessing efficacy and overall performance of the program implementation during the year **2015-16 to 2019-20** in terms of objectives. It is expecting that the findings of the study will provide outcome and shortcomings to facilitate corrections, if any, to implement the scheme for the remaining period of 14th Finance Commission.

5 Instructions to Bidders

5.1 Selection of an agency in order to conduct Impact Evaluation Study for the scheme

Ministry of Agriculture & Farmers Welfare wishes to engage services of an agency for Impact Evaluation of Centrally Sponsored Scheme (CSS) of Bringing Green Revolution in Eastern India (BGREI) implemented during the year 2015-16 to 2019-20.

The agency is expected to

1. Evaluation of the scheme based on the parameters stated in this RFP
2. Provision of suggestions on the way forward to the Ministry to improve and enhance the reach and performance of the scheme

The short listed Bidders are invited to submit a comprehensive proposal as per the requirements stated in this document. The Proposal will be the basis for contract negotiations and ultimately for a signed Contract with the selected Bidder. Bidders should familiarize themselves with local conditions and take them into account in preparing their Proposals. If any clarification is required on any clause/condition of the RFP, the same may be forwarded within the prescribed time period to the Employers' representative. Bidders shall bear all costs associated with the preparation and submission of their proposals and contract negotiation. The Employer is not bound to accept any proposal and reserves the right to annul the selection process at any time prior to award of the Contract without thereby incurring any liability to the Bidders.

5.2 Clarifications and Amendments to the RFP

Bidders may request a clarification on any clause of the RFP document within the timeframe indicated in this RFP. Any request for clarification must be sent in writing or e-mail to the Employer's address indicated in the Data Sheet. The Employer will respond in writing or by e-mail to the bidder about any clarifications. At any time before the submission of proposals, the Employer may amend the RFP by issuing an addendum/corrigendum in writing or by announcing it through its website. The addendum/corrigendum shall be binding on all Bidders. Bidders shall acknowledge receipt of all such amendments/corrigenda. To give the Bidder reasonable time in which to take an amendment/corrigendum into account in their proposals, the Employer may, if the amendment/corrigendum is substantial, extend the deadline for the submission of proposal. Pre-bid meeting may be convened, if required, to clarify any concerns bidders may have with the solicitation documents, scope of work and other details of the requirement. This meeting will be formal and the results of the pre-bid meeting will be made available in writing to all prospective bidders.

5.3 Conflict of Interest

The Employer requires that Bidders provide professional, objective and impartial advice and at all times hold the Employer's interests paramount, strictly avoid conflicts with other assignment/jobs or their own corporate interest and act without any consideration for future work. Without limitation on the generality of the foregoing, Bidders, and any of their affiliates, shall be considered to have a conflict of interest and shall not be recruited, under any of the circumstances set forth below.

1. **Conflicting Activities:** A bidder or any it's affiliates selected to provide Impact Evaluation assignment/job for this project shall be disqualified from subsequent downstream supply of goods or works or services resulting from or directly related to this project, if the consultancy or any it's affiliates is found indulged in any such activities which may be termed as the conflicting activities by the employer.

2. **Conflicting Assignment/job:** A Bidder (including its affiliates) shall not be hired for any assignment/job that, by nature, may be in conflict with another assignment/job of the Bidder to be executed for the same or for another Employer.
3. **Conflicting Relationships:** A Bidder that has a business or family relationship with a member of the Employer's staff who is directly or indirectly involved in any part of the project shall not be awarded the Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Employer throughout the selection process and the execution of the Contract.
4. **Non-conformance with Service Level Agreements:** The proposal shall be deemed unresponsive for the bidders that do not confirm unconditional acceptance of full responsibility of providing services in accordance with the Scope of work and Service Level Agreements of this tender.

Bidders have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Employer, or that may reasonably be perceived as having this effect. Any such disclosure shall be made as per the forms of technical proposal provided herewith. If the Bidder fails to disclose said situations and if the Employer comes to know about any such situation at any time, it may lead to the disqualification of the Bidder during bidding process or the termination of its contract during execution of the assignment.

If a shortlisted Bidder could derive a competitive advantage from having provided consultancy assignment/job related to the assignment /job in question and which is not defined as conflict of interest as per para above, the Employer shall make available to all short-listed Bidders together with the RFP all information that would in the respect give such Bidder any competitive advantage over competing Bidders. Short-listed Bidders shall submit one proposal for each of the projects of BGREI. If a Bidder submits or participates in more than one proposal, such proposals shall be disqualified.

5.4 Proposal Validity

The table in the section 3, indicates how long Bidders' proposals must remain valid after the submission date. During this period, Bidders shall maintain the availability of professional staff nominated in the proposal and also the financial proposal unchanged. The Employer will make its best effort to complete negotiations within this period. Should the need arise; however, the Employer may request Bidders to extend the validity period of their proposals. Bidders who agree to such extension shall confirm that they maintain the availability of the Professional staff nominated in the Proposal and their financial proposal; Bidders could submit new staff replacement, which would be considered in the final evaluation for award of the contract. Bidders, who do not agree, have the right to refuse to extend the validity of their Proposals. Under such circumstance, the Employer shall not consider such Proposal for evaluation.

5.5 Preparation of Proposal

The proposal as well as all related correspondence exchanged by the Bidders and the Employer shall be written in English language, unless specified otherwise. In preparing their Proposal, Bidders are expected to examine in detail the documents comprising the RFP. Material deficiencies in providing the information requested may result in rejection of a Proposal.

5.5.1 Eligibility Criteria/Pre-Qualification

The bidder will be required to submit compliance to the eligibility criteria with required proofs and forms as stated in the Section 10 Annexure 1.

5.5.2 Technical Proposal

The bidder should pay particular attention to the TQ Evaluation Matrix as stated later in the RFP while preparing the proposal (Section 10.4.2.3 in Annexure 4). Depending on the nature of the assignment/job, Bidders are required to submit a Technical Proposal (TP) as per the formats stated in this RFP in Annexure 4. Submission of a Technical proposal not in concordance with the TQ matrix will result in the Proposal being deemed non-responsive.

5.5.3 Commercial Proposal

The Financial Proposal shall be prepared using the prescribed Forms in Annexure 4 Section 10.4.3. It shall list all costs associated with the assignment/job indicated in the RFP. These costs should be broken down by activity. The financial proposal shall be rejected summarily, if found not in the prescribed format.

5.5.4 Earnest Money Deposit

An earnest money of Rs. 2,00,000 (Rupees Two lakhs only) in the shape of bank draft /demand draft in favor of PAO (Sectt.I), Department of Agriculture, Cooperation & Farmers Welfare payable at New Delhi at the time of PQ bid submission for each of the proposals for BGREI. If the bidder doesn't submit the EMD within the stipulated time, the proposal shall be deemed unresponsive. No interest shall be payable by the Employer for the sum deposited as EMD. The EMD of the unsuccessful bidders would be returned within one month of signing of the contract.

Forfeiture of EMD

The EMD shall be forfeited by the Employer in the following events.

1. If the proposal is withdrawn during the validity period or any extension agreed by the bidder thereof;
2. If the proposal is varied or modified in a manner not applicable to the Employer after opening of Proposal during the validity period or any extension thereof; and
3. If the bidder tries to influence the evaluation process

5.5.5 Performance Bank Guarantee

The selected bidder shall be required to furnish a Performance Bank Guarantee equivalent to 10% of the contract value rounded off to the nearest thousand Indian Rupees in the form of an unconditional and irrevocable bank guarantee from a scheduled commercial bank in India in favor of PAO (Sectt.I), Department of Agriculture, Cooperation & Farmers Welfare payable at New Delhi for the period of contract with 60 days claim period beyond the completion of all contractual obligations. The bank guarantee must be submitted after award of contract but before signing of the consultancy contract. The successful bidder has to renew the bank guarantee on same terms and conditions for the period up to contract including extension period, if any. Performance Guarantee would be returned only after successful completion of tasks assigned to them and only after adjusting/recovering any dues recoverable/payable from/by the bidder on any account under the contract. On submission of performance guarantee and after signing of the contract, EMD would be returned.

5.5.6 Submission, Receipt and Opening of the Proposal

The original proposal, both Technical and Financial shall contain no interlineations or overwriting. Submission letters for both Technical and Financial Proposals should be in the format prescribed in Annexure 4. An authorized representative of the Bidders shall initial all pages of the original Technical and Financial Proposals. The signed Technical and Financial Proposals shall be marked "ORIGINAL". The original and three copies of the Technical Proposal shall be placed in a sealed envelope clearly marked "TECHNICAL PROPOSAL_ <Name of the bidder>". Similarly the original Financial Proposal shall be placed in a separate sealed envelope clearly marked "FINANCIAL PROPOSAL_ <Name of the bidder>" followed by the name of the project. The envelopes containing the Technical proposals, Financial Proposals and EMD shall be placed into an outer envelope and sealed. This outer envelope shall bear the submission address, and reference number clearly marked "DO NOT OPEN BEFORE TIME (time and date of the opening indicated in the data sheet)". The Employer shall not be responsible for misplacement, losing or premature opening if the outer envelope is not sealed and/or marked as stipulated. This may lead to rejection

of the Proposal. If the Financial Proposal is not submitted in a sealed envelope duly marked as indicated above, this will constitute grounds for declaring the Proposal non-responsive. The proposals must be submitted in person to the addressee indicated in the Data Sheet and received by the Employer not later than the time and the date indicated in the Data Sheet. If there is any extension to the proposal submission data or any other date as per the data sheet, the department will issue an official communication for the same. Any proposal received by the Employer after the deadline for the submission shall be returned unopened. Technical Proposals will be opened on the date and time as indicated in the RFP in the presence of resources that wish to attend.

6 Proposal Evaluation

From the time the proposals are opened and by the time the contract is awarded, the bidders should not contact the Employer on any matter related to its Technical and/ or Financial Proposal. Any effort by bidders to influence the Employer in the examination, evaluation, ranking of Proposals, and recommendation for award of contract may result in the rejection of the bidders' proposal. The Employer has constituted a Consulting Evaluation Committee (CEC) for selection of the bidder which will carry out the evaluation process. The CEC will examine the eligibility criteria response, technical proposal and commercial proposal and thereafter judge the qualifying bidder based on a transparent evaluation.

6.1 Technical Proposal Evaluation

The CEC shall evaluate the Technical Proposals on the basis of their responsiveness to the requirements stated in the Scope of Work and by adhering the formats as proposed in the RFP. In the first stage of evaluation, a proposal shall be rejected if it is found deficient as per the requirement indicated for responsiveness of the proposal. Only responsive proposals shall be further taken up for evaluation. Evaluation of the technical proposal will start first and at this stage the financial bid (proposal) will, remain unopened.

6.2 Commercial Proposal Evaluation

Since the RFP is of the QCBS type, the cost will be evaluated post the evaluation of the quality of the proposal. Commercial details have to be filled as per the formats given in the RFP. Financial proposals of only those bidders which are declared technically qualified shall be opened publicly, on the date and time specified in the Datasheet, in the presence of the bidders' representatives who choose to attend. The name of the bidders, their technical score (if required), and their Financial Proposal shall be published accordingly.

6.3 Method of Selection

In deciding the final selection of the bidder, the technical quality of the proposal will be given a weightage of 70% on the basis of criteria for evaluation. The price bids of only those bidders who qualify technically will be opened. The proposal with the lowest cost will be given a financial score of 100 and the other proposal given financial scores that are inversely proportional to their prices. The financial proposal shall be allocated a weightage of 30%. For working out the combined score, the employer will use the following formula.

$$\text{Total Score} = (0.7 \times \text{Technical Score}) + \frac{(0.3 \times 100 \times \text{Lowest Evaluation Cost})}{\text{Evaluation Cost of the commercial proposal}}$$

The proposals will be ranked in terms of total points scored. The proposal with the highest total points will be considered for award of contract and will be called for negotiations, if required.

Example: if in response to this RFP, three proposals, A, B & C were bidders and the CEC awarded them 75, 80 and 90 marks respectively, all the three proposals would be technically suitable. Further, if the

quoted price of proposals A, B & C were Rs.120, 100 & 110 respectively, then the following points for financial proposals may be given

A: $100/120= 83$ points

B: $100/100= 100$ points

C: $100/110= 91$ points

In the combined evaluation, the process would be as follows:

Proposal A: $75 \times 0.7 + 83 \times 0.3 = 77.4$

Proposal B: $80 \times 0.7 + 100 \times 0.3 = 86$

Proposal C: $90 \times 0.7 + 91 \times 0.3 = 90.3$

In this case, Proposal C would be considered for further negotiations. The short-listed/qualifying bidders will be invited to present their proposals before the Consultancy Selection Committee (CEC). The CEC will correct any computation errors. When correcting computational errors, in case of discrepancy between a partial amount and the total amount, or between words and figures, the former will prevail. In addition to the above corrections, the items described in the technical Proposals but not priced, shall be assumed to be included in the prices of other activities of items. In case an activity of line items is quantified in the Financial Proposal differently from technical proposal, no corrections will be allowed to the Financial Proposal. After opening of financial proposals the bidder will be declared eligible for award of the contract. This selected bidder will then be invited for negotiations, if considered necessary.

Negotiations, if considered necessary, shall be held only with the bidders who shall be placed as qualifying after combined evaluation of the Technical and Financial Proposal. Under no circumstance, the financial negotiation shall result into an increase in the price originally quoted by the bidder. Date and Time for negotiation shall be communicated to the qualifying bidder. Representatives conducting negotiations on behalf of the bidder must have the written authority to negotiate and conclude the contract.

6.4 Award of Contract

After completing negotiations the Employer shall issue a Letter of Intent to the selected bidder and promptly notify all other bidders who have submitted proposals about the decision taken. The bidder will sign the contract after fulfilling all the formalities/pre-conditions (contract to be signed after the selection of bidder), within 15 days of issuance of the letter of intent. The bidder is then expected to commence the assignment/ job on the date specified in the RFP in the Data Sheet Table. The proposals will be ranked in terms of the Overall Scores obtained from Highest to Lowest. The bidder with the highest overall score will be considered for award of contract. In case of a tie, the bid that scored a higher Technical score among the bids in a tie will be considered the best value bid.

6.5 Confidentiality

Information relating to evaluation of proposals and recommendation concerning awards shall not be disclosed to the bidders who submitted the proposals or to other persons not officially concerned with the process, until the publication of the award of Contract. The undue use by any bidder of any information related to the process may result in the rejection of its proposal and may be subject to the provisions of the Employer's anti-fraud and anti-corruption policy.

6.6 Relaxation and Overriding of any clause

The Joint Secretary of DAC FW shall have the power to override anything written or quoted in this RFP. He also houses the power to relax any criteria at any stage or terminate any contract as signed if the bidder is not found to be performing to the expected level.

7 Scope of Work

The program of "Bringing Green Revolution to Eastern India (BGREI)" was launched in 2010-11 to address the constraints limiting the productivity of "rice based cropping systems" in eastern India

comprising seven (7) States namely; Assam, Bihar, Chhattisgarh, Jharkhand, Odisha, Eastern Uttar Pradesh (Purvanchal) and West Bengal. The program is now a sub-scheme of Rashtriya Krishi Vikas Yojana.

The objectives of the scheme are as follows

1. To increase production & productivity of rice and wheat by adopting latest crop production technologies
2. To promote cultivation in rice fallow area to increase cropping intensity and income of the farmers
3. To create water harvesting structures and efficient utilization of water potential; and
4. To promote post-harvest technology and marketing support

Some major interventions include

1. Block / cluster demonstration of improved production technology
2. Asset building activities for farm improvement
3. Site specific activities for farm renovation
4. Seed production & distribution
5. Need based Inputs
6. Marketing support & post-harvest management and
7. Ecology specific rice based cropping

7.1 Objective of the Evaluation

In pursuance of the existing operational Guidelines of BGREI, the program should be evaluated through an independent agency/organization at national level in terms of objectives. The services of a suitable “Bidder” (Agencies Organization) is required to be outsourced as per the provisions contained in “Manual of Policies and Procedure of Employment of Consultant” (GFR Rules) issued by Department of Expenditure, Ministry of Finance, Government of India read with relevant instructions issued from time to time by inviting Expression of Interest (EOI) from reputed & qualified “Bidders” for carrying out Impact Evaluation Study. To determine the relevance and fulfillment of aims, as well as efficacy and effectiveness of implementing the scheme in each State by

1. Evaluating the process of planning, implementation and monitoring of interventions of BGREI by the Implementing States/Agencies;
2. Examine the involvement Panchayati Raj institution particularly in identification of beneficiaries;
3. Examine the utilization of earmarked funds for SC/ST farmers in proportionate to their population in the State;
4. Collection of States/District wise area, production and productivity of Rice and Wheat and analysis of data with respect to overall impact of program implemented from 2015-16 to 2019-20.
5. Collection of States/District wise total area coverage under rice and wheat during 2015-16 to 2019-20 under (BGREI) and analysis of data with respect to impact of program in terms of area expansion and productivity improvement of rice and wheat during last 05 years in the implementing states covered.
6. Collection of data pertaining to supply of key inputs under each crop component of BGREI during last 05 years and impact of these interventions in area expansion and productivity improvement of rice and wheat:
7. Collection of data pertaining to asset building, site specific activities and post-harvest & marketing interventions of BGREI for last 05 years and assess the impact of these interventions in yield enhancement, farmers income, procurement and post-harvest losses.

7.2 Impact Evaluation Study

An Impact Evaluation Study measures and goes beyond measuring impacts that have occurred to understand the role of the intervention. It can encompass a broad range of methods for attribution. The

bidder will be required to document the approach to achieving an effective Impact Evaluation. The bidder should also provision to examine unintended impacts. The Department of Agriculture and Farmers' Welfare has an aim to evaluate the Impact caused by the BGREI Scheme through an evaluation agency for which this RFP invites the eligible bidders to bid. The impact thus assessed shall be to improve and reorient various interventions in BGREI Scheme. The study conducted should be used for summative purposes i.e. it should not only help the department to understand what causes the most differential impact, but also assist the department in the improvement process by producing relevant findings and information about the implementation of the changes to be made.

The evaluation carried out by the bidder

1. Should serve as an accountability purpose to determine if and how well BGREI and undertaken interventions have performed.
2. Should answer the question around program design and how to improve it
3. Should evaluate which of the components of the scheme have been able to generate the maximum outputs and which ones were completely ineffective
4. Should account for the counter-factual situations mapping a cause and effect model
5. Should state the outcomes and the way forward for corrective measures to be undertaken
6. Should take into account the “versus without” factor and “before versus after”
7. Should create a strong evidence base for neighboring sectors in a variety of contexts to provide guidance for policymakers

7.3 Evaluation Design

The bidder should be able to

1. Identify key evaluation questions
2. Triangulate the findings through the evaluation
3. Contextualize the evaluation process
4. Document the program theory and the chain from inputs to outputs

A program theory is an expression of the log frame but with a more explicit analysis of the assumptions shaping the theory. Alternative causal paths should also be identified. The theory must also allow for the major external factors influencing outcomes. The theory created should be able to test the validity of the assumptions. The various links in the chain should also be analyzed using a variety of methods, building up an argument as to whether the theory has been realized in practice.

The bidder shall completely understand and document the as-is processes deployed under the BGREI Scheme. The bidder should also depict, in the technical proposal, a decision tree based set of steps showing the best evaluation approach for the scheme.

7.3.1 Baseline Survey Design

A baseline survey should be conducted as early as possible. The survey design must be in concordance with the design of the valuation strategy.

1. Data must be collected across the results chain, not just on outcomes
2. The sample must be of adequate size and generic/specific in nature depending upon the nature of the audience.
3. Multiple instruments and targets should be catered to
4. Testing of the instruments and the findings will have to be done
5. The bidder will be required to run planned tabulations and analyses with dummy data or the data from the pilot.
6. Tracing of the respondents for later rounds of the survey should be done, and linkage with the data should follow.

Along with baseline study, the study should also be carried out through secondary research.

7.3.2 Nature of Evaluation

Below is an indicative list of evaluations to be carried out.

1. The bidder is required to carry out the in-depth impact analysis of BGREI program for the period

2015-16 to 2019-20 including the extent of enhancement in area, production and yield of BGREI crops (Rice and wheat) at National, State and selected Districts analyzing pre & post status.

2. The bidder shall evaluate the efficacy of planning at district and state levels in terms of its adequacy for enhancing the productivity of component crops in the selected districts with respect to the provisions in the guidelines.
3. The bidders shall analyze effectiveness of existing administrative and technical set up with the State Implementing Agencies in administering the program at the district and State levels for planning, implementation, monitoring and reporting systems.
4. The bidder will have to analyze adequacy and timeliness of funds flow and delivery mechanism of all inputs to the farmers.
5. The bidder must evaluate the effectiveness of stakeholders involved in delivery of services, and effectiveness of collaboration among the department at district and state levels.
6. The bidder should assess extent of convergence with other GoI schemes/programs.
7. The bidder shall analyze intervention-specific physical and financial achievements vis-à-vis targets and the effectiveness.
8. The bidder should analyze the change in the farm level income over the base year (2015-16 to 2019-20) in the selected districts; also assessment of district and indirect employment opportunities created in course of implementation of the program.
9. The bidder should analyze the irrigation potential created through water harvesting structure, pump-set, shallow tube-well, etc. and its utilization for the program.
10. To analyze the increased storage capacity due to construction of go-downs in the project area, credit and post-harvest activities including marketing.
11. The bidder must also analyze the increased procurement of rice and wheat after implementation of BGREI in the last 5years.
12. Also based on the study, the bidder should furnish the main recommendations.

The bidder will be required to carry out fidelity measurement of implementation. When working out the plan of an impact evaluation, the implementation of the intervention must be well documented. It should be documented whether the instructions were clearly followed, if anything was changed. The job will be to assess the effectiveness of the intervention but also map a strategy should the intervention be used again or brought to scale. This includes highlighting the conditions under which the intervention was implemented as well as explaining any modifications

Based on the study, the bidder should furnish the main recommendations.

The impact evaluation should come up with suggestions, corrective and remedial measures for better implementation of the program during subsequent years. The selected bidder should also identify other fields to carry out evaluation tasks.

7.3.3 Statistical Analysis and Reporting

The bidder will be required to carry out comprehensive statistical analysis on the data thus collected in order to augment the findings and aid decision making for the department. The bidder will also be required to create reports from the analysis done and create dashboards for publishing on BGREI website with user access control. An indicative list of analyses are as follows

1. **Research Questionnaire:** Research questionnaire shall be drafted by the bidder with utmost clarity. The questions should be mutually exclusive and collectively exhaustive. The questionnaire should contain counterfactual conditions explicitly.
2. **Fidelity Measurement:** The bidder will be required to carry out fidelity measurement of implementation. When working out the plan of an impact evaluation, the implementation of the intervention must be well documented. It should be documented whether the instructions were clearly followed, if anything was changed. The bidder should assess the effectiveness of the intervention but also map a strategy should the intervention be used again or brought to scale. This includes highlighting the conditions under which the intervention was implemented as well as explaining any modifications.
3. **Data Collection and Analysis:** The data collection plan should describe the measures (outcome and baseline) and a detailed analysis plan. The following should indicatively be described for each measure: Name of the measure including subtest; Measure citation, Validity and reliability

information, Information regarding the measures alignment with intervention, information on how the outcomes are collected for treatment and control groups and whether collectors are aware of group membership, Scale and score type, information on other independent variables. With any impact evaluation the bidder should be searching for evidence to support claims of what would have occurred (or not occurred) had the intervention not been available so a clear plan for that process as well as triangulation is important.

4. **Blinding:** The bidder should carry out single blinding and double blinding analysis. Single Blinding is the process of concealing which subjects are in the treatment group and which are in the comparison group. In Double Blinding, neither the subjects nor those conducting the trial know who is in which group, and in a triple blinded trial, those analyzing the data do not know which group is which. Blinding is generally not practical for socio-economic development interventions, thus introducing possible bias.
5. **Cluster Sample:** A multi-stage sample design should be created, wherein a sample is first drawn of a larger domain and then a subset sample is drawn from that relating to a sub-domain. The bidder is required to form these clusters and use for classification techniques.
6. **Hypothesis Analysis:** Hypothesis testing should be done based on a confidence level should be conducted and reviewed with the department
7. **Cost – Benefit Analysis:** An analysis of cost and benefit reached should be comprehensively conducted by the bidder.
8. **Predictive Statistics:** The bidder must identify the dependent variables with respect to the domains being analyzed and should map independent variables corresponding to them. The bidder should then check the impact caused by the independent variables over the dependent one. The bidder should present the department with findings and predictions with respect to the domains identified. Classification and Regression techniques must be employed for this.

Note: The tools required to perform these and other analyses shall be open source and the bidder shall not include the cost of these tools in the commercial bid.

7.3.4 Coverage and Sample Size

The coverage of the tasks to be undertaken shall be as follows

1. The assessment activity shall span geographically in all 7 Eastern States comprising of Assam, Bihar, Chhattisgarh, Jharkhand, Odisha, Eastern Uttar Pradesh and West Bengal.
2. Sample size should be at least 25% districts of each state but not less than 5 districts from any state. The selection of the districts should be done preferably covering all crop components of BGREI.
3. In case any state has less than or equal to 5 districts, all the districts shall be taken into account.
4. Minimum 50 beneficiary-farmers and 10 non-beneficiary farmers for each key intervention of individual crop component of BGREI may be covered in each district
5. Production growth data for rice & wheat should be collected separately for Kharif & Rabi seasons. The report shall contain the full evaluation for the five years project period that will include the findings of Kharif and Rabi seasons.
6. Value addition, post-harvest activities, water harvesting structures, irrigation potential, etc must be analyzed separately across states

The bidder will be required to demonstrate the approach to arriving at selected districts and farmer geographies. There should be a clear reason and rationale behind the data points considered to finalize the sample. This shall be discussed in the presentation of the technical proposal in front of the CEC.

7.3.5 Manpower Requirements

A core team comprising of experts shall be constituted for undertaking the evaluation. There are 7 states under BGREI namely, Assam, Bihar, Chhattisgarh, Jharkhand, Odisha, Eastern Uttar Pradesh and West

Bengal. Each state should be headed by a Chief Evaluator/Program Manager. The core team should be supported by senior and associate researchers for collection of primary and secondary data from every state after completion of Kharif and Rabi seasons. The selected agency is free to select state wise agencies for collection and analysis of data, but all the responsibility for undertaking evaluation as per these terms and conditions will be vested with the selected agency. All the administration support will be extended to have access to data reporting with Govt. Institutions /Universities/Departments/KVKs. The details for Manpower requirements and qualifications are listed below. The bidder will be required to state the commercial implications as per the Annexure 4, Section 10.4.3. The following resources would be needed by the department to commence implementation of the project

Table 2

S.No.	Role	Qualification	Experience Quality
1	Program Manager/ Chief Evaluator	Master's degree in agronomy/plant breeding, development economics, econometrics, applied sociology, statistics, agricultural extension or similar field.	<ul style="list-style-type: none"> • Minimum 10 years' experience in monitoring, evaluation and impact assessment and in project management and partnership roles. • Experience in at least 6 projects relating to the field of Agriculture and crop production. • Experience in handling a large team of researchers • Superior knowledge of best practices and current trends in large project portfolio management, monitoring and evaluation in the field of
2	Senior Researcher	Master's degree in agronomy/plant breeding, development economics, econometrics, applied sociology, statistics, agricultural extension or similar field.	<ul style="list-style-type: none"> • Minimum 7 years' experience in monitoring, evaluation and impact assessment, statistical analysis to judge impact • Experience in the use of Statistical methods to aid impact evaluation • Experience in at least 4 projects of such nature (in the fields relating to agriculture and crop production) • Experience in conducting econometric and statistical analysis with a focus on experimental or quasi-experimental approaches • Superior knowledge of best practices and current trends in large project portfolio management, monitoring and evaluation
3	Associate Researcher	Bachelor's degree in plant protection, development economics, econometrics, applied sociology, statistics or similar field.	<ul style="list-style-type: none"> • Minimum 4 years' experience in monitoring, evaluation and impact assessment, statistical analysis to judge impact • Experience in the use of Statistical methods to aid impact evaluation • Experience in at least 2 projects of such nature (in the fields relating to agriculture and crop production) • Experience in conducting econometric and statistical analysis with a focus on experimental or quasi-experimental approaches

4	BI/MIS Analyst	Bachelor's degree in Technology, statistics or similar field	<ul style="list-style-type: none"> • Minimum 4 years' experience in creating visualizations on leading BI Tools and carrying out statistical and predictive analytics • Experience in the use of Statistical methods to aid impact evaluation • Experience in at least 2 projects of such nature
---	----------------	--	---

Note :- The manpower / professionals would be increase/decrease as per the compilation of the work in targeted period.

The bidder will be required to suggest the number of resources for the successful implementation of the program as part of the commercial proposal In Annexure 4, Section 10.4.3. The department has stated the requirement in the annexure, but the bidder is given the relaxation to suggest otherwise if deemed fit. The bidder should also provision for **data entry operators/surveyors** and shall submit their resumes too as per the format prescribed in this RFP.

7.3.6 Deliverables

Following deliverables shall be submitted by the bidder during the course of the project

Table 3

S.No.	Name of the Deliverable	Description	Frequency
1	Project Plan	The bidder shall convey the roadmap for the whole project with timelines in concordance with timelines in this document. The timelines should be broken up to the most granular level of detail	Start of the project
2	Evaluability Assessment	The bidder shall carry out a complete As-Is and To-Be Study of the scheme and identify the parameters against each area to be evaluated.	Start of the project
3	Evaluation Strategy Document	The bidder should, after understanding the scope and current ecosystem of the scheme, come up with a comprehensive roadmap for the approach to be followed to implement and conduct the evaluation study. This should state the strategy to target each crop and intervention defined in the scope of this document.	Updated monthly
4	Ad-Hoc Reports	The department may ask for any report to be generated relating to the impact analysis study being conducted at any point in time. The bidder should be able to generate the necessary data and provide to the department.	As and when required
5	Periodic Reports	There might be some reports that the department would seek on a periodic basis. The bidder will be required to identify such areas and provide these reports based on the frequency decided by the department.	Daily, weekly, monthly
6	Trend Analysis Report	The bidder shall be able to make use of the past data and the current data to stitch a story for the department with respect to trends. The bidder shall also conduct a time series analysis of crop lifecycle and productivity indices.	At the start and the end of the project
7	Final Impact Analysis Report	The bidder will have to submit an Impact Analysis report explaining the mapping between target and achievement and various statistical methods undertaken to arrive at the results. The bidder shall carry out predictive analysis and document findings for the next six months from project closure. The bidder shall be required to submit a summary report too. The cost shall be included in a separate section as specified in Section 10.4.3.2	At the end of the project

8	Analytical Dashboard	The bidder should gather the necessary data points and create a robust and all- encompassing dashboard to depict the whole picture to the department with respect to crop productivity and other measures after defining seasonal and spatial filters.	At the start of the project. Updating as needed
---	----------------------	--	---

8 Payment Terms

The project should go on for a tenure of 3 months and should follow the following payment timelines. ‘T’ is defined as the date on which the contract is signed between the successful bidder and the department. Increments in T have been made in weeks. E.g. T+1 should be read as 1 week post the signing of contract.

Table 4

S.No.	Description of task	Timeline	Percentage of Payment to be released
1	Mobilization/Deployment of the team at client location	T+1	30%
2	As-Is Study and To-Be Scenarios. Project Plan to be submitted with signoff from the client	T+2	
3	Data Collection and quality maintenance. Identification of variables and parameters for impact assessment of interventions and crop productivity enhancement	T+4	
4	Formative Assessment and Process Evaluation. a) Reporting on well performing crops and poor performing crops followed by statistical analyses b) Suggestion of changes to be inculcated in the processes to ensure enhanced productivity c) Ad-hoc and periodic reporting d) Timely signoffs	T+8	40%
5	Summative, outcome and impact evaluation. Final Impact Evaluation report to be submitted and presentation to be prepared and delivered	T+10	
6	Dissemination of outputs and freezing of dashboards & reports with department signoff	T+12	30%

Note: The comments cited by the department officials after the submission of each deliverable shall necessarily be incorporated in version maintained incremental fashion.

9 Service Level Agreements

The severity levels of SLAs and the associated financial Liquidated Damages are defined as per the following table

Table 5

Severity Level	Liquidated Damages as a percentage of Monthly Notional payment applicable for respective track
6	2.0 %
5	1.0 %
4	0.5 %
3	0.4 %
2	0.2%
1	0.1%

Performance Levels and Liquidated Damages

A 'day' can be defined as 1 working day – Monday to Friday. Although, if the need arises the bidder shall be able to make the resources available on Weekends too.

Table 6

S.No	SLA Parameter	Definition & Target	Service Level	Severity Level
Team Mobilization				
1	Team mobilization (Key Personnel) and commencement of work	The selected bidder is expected to mobilize the team for commencement of work for this project. Key Personnel to be deployed within 5 calendar days from the date of release of purchase order. For Impact Evaluation Services, commencement of work would mean reporting of selected bidder's resources at the designated location for project & implementation planning, analysis and design.	<=5 days	Nil
			>5 days and <=8 days	2
			>8 days and <=10 days	3
			> 10 days	4
2	Detailed Project Plan (Including Master Project Plan, Track-wise Project Plan and Inception report)	A detailed project plan with clear milestones will be drafted by the selected bidder within 10 working days of release of purchase order. The plan will be submitted to the department for approval. Inputs, if any, shall be incorporated within 2 working days of receipt of inputs. The selected bidder would be required to seek signoff from the client for the plan	<=10 days	Nil
			>10 days and <=13 days	2
			>13 days and <=15 days	3
			> 15 days	4

3	Delay in any of the project milestones as agreed in the Project Plan	<p>Measured as the difference between the planned date for the milestone and the actual date of its completion. Target: ≤ 7 Days</p> <p>Note: The selected bidder shall prepare a detailed project plan and submit to the department for approval. The timelines shall be measured against the approved project plan. Any deviation in the project plan shall be mutually discussed and agreed. The project plan shall be created as per the timelines specified in the RFP in Payment Terms Section</p>	≤ 7 days	Nil
			> 7 days and ≤ 10 days	1
			> 10 days and ≤ 15 days	2
			> 15 days	4
Project Personnel SLAs				
4	Availability of all Resources	No. of shift hours for which resources present at all designated locations / Total no. of shift hours	$\geq 95\%$ averaged over all resources designated for selected bidder services and calculated on Monthly basis	Nil
			$\geq 92\%$ & $< 95\%$ averaged over all resources designated for selected bidder services and calculated on Monthly basis	4
			$\geq 85\%$ & $< 92\%$ averaged over all resources designated for selected bidder services and calculated on Monthly basis	5
			$< 85\%$ averaged over all resources designated for selected bidder services and calculated on Monthly basis	6
5	Changes in Named Key Personnel necessary to fulfill the scope of work	Resources can only be changed once in a quarter with prior approval from the Department. Replacement of one resource will be considered as one change	One resource change	Nil
			> 1 & ≤ 3 changes	5
			> 3 & ≤ 5 changes	6
6	Time Taken for Resource Replacement	Time taken in replacing existing resources owing to non-performance up to satisfactory level at the request of the Department	Within 1 week of request	Nil

	Replacement of existing resource owing to non-performance up to satisfactory level at the request of the Department		>1 weeks to <=2 weeks	5
			>2 weeks	6
Reports and Deliverables				
7	Average response time for ad hoc reports	Average Response time shall be recorded by the department at each step	<=5 days	Nil
			>5 day &<10 days	3
			>= 10 days	4
8	All Periodic reports (Daily, Monthly, Quarterly and yearly)	% of reports received periodically (adhering to timelines)	>98%	Nil
			>94% to <=98%	2
			>90% to <=94%	3
			>80% to <=90%	4
9	Delay in submission of summary, final Impact Evaluation Reports and published analytical dashboards	The delay shall be recorded by the department at each step	<=5 days	Nil
			>5 day &<10 days	5
			>= 10 days	6

10 Annexures

10.1 Annexure 1: Eligibility Criteria/Pre-Qualification

The bidder must possess the requisite experience, strength and capability in providing the services necessary to meet the requirements as described in the tender documents. The bidder must also possess the technical know-how and the financial wherewithal that would be required for successfully providing services sought by the Department of Agriculture and Farmers' Welfare for the entire period of the contract. The bids must be complete in all respect and should cover the entire scope of work as stipulated in the Tender document. The invitation to proposal is open to all bidders who qualify the eligibility criteria as given below:

Table 7

S.No.	Basic Requirement	Specific Requirements	Documents Required
1	Bidder Company	The bidder must be incorporated & registered in India, under any Act and should be in operations for minimum of 5years	Certificate of incorporation and Service Tax Registration Certificate
2	Bidder Turnover	The bidder should have a minimum average Annual turnover of Rs.5 Crore from Indian operations from Impact Evaluation projects over the last three Financial years (FY 16-17, FY 17-18 and FY 18-19)	Extracts from the audited Balance sheet and Profit & Loss Account; OR Certificate from the statutory auditor
3	Bidder Positive Net Worth	The bidder should have positive Net Worth in each of the last three Financial Years (as on year ending on 31st March 2017, 2018 & 2019)	Extracts from the audited Balance sheet and Profit & Loss Account; OR Certificate from the statutory auditor
4	Bidder Experience and Technical capability	Bidder should have undertaken Impact Evaluation in at least 3 large scale projects of minimum INR 1 crore of Contract Value in the past three years for International/National/State level in Govt./Corporate Sector programs"	Bidder should submit one of the following: 1. Copy of contract/ client letter 2. PO / Work Order issued by client 3. Pre-qualification bid citations format to be filled as per Section 10.4.1.3
5	Bidder Consulting Capacity	The bidder company, as on 31st March 2015, should have on its rolls consulting staff of at least 40 technically qualified personnel in the area of consulting services for Program / Project Management, Impact Assessment and Evaluation, Research Study, Capacity Building, Impact Evaluation Reporting in Agriculture and Crop Production and who possess relevant degrees/credentials in agronomy, public health, economics, political science, psychology, statistics, public policy, or another relevant	Summary Sheet including Name, Qualification, Experience and Certification in management and assessment of impact and should attested by appropriate authority.

		social science degrees with prior experience in providing the above consultancy services. The resources shall also be conversant with statistical tools like R/Python/SAS, etc. and visualization tools like Qlik Sense, Tableau, Power BI, etc.	
6	Blacklisting	The bidder should not have been black listed or conflict of activities by any State Government, Central Government or any other Public Sector undertaking or a Corporation or any other Autonomous Organization of Central or State Government for breach of Contractual Conditions as on bid calling date. Self-Certificate declaring that the bidder is not black listed to be enclosed.	Self-Declaration Certificate that the Bidder is not black listed. (Certificate to be enclosed in the bid duly signed by the authorized signatory on its letter head).
7	Authorized Representative from Bidder	A power of attorney / Board resolution in the name of the person signing the bid.	Original Power of attorney/Board Resolution copy
8	EMD	The bidder should furnish, as part of its proposal, an Earnest Money Deposit (EMD) of Rs. Two Lakhs only (Rs. 2, 00,000/-).	Bank draft OR demand draft in favor of PAO (Sectt.I), Department of Agriculture, Cooperation & Farmers Welfare to be submitted payable at New Delhi in the technical bidfor each of the proposals for BGREI.

Note: - Only those bidders who meet the pre-qualification criteria specified above will be eligible to respond to this TENDER. The bidder's pre-qualification proposal shall contain the relevant information & supporting documents to substantiate the eligibility of the bidder vis-à-vis the pre-qualification criteria.

10.2 Annexure 2: Summary of Technical Evaluation

1. The Department will review the technical bids of the short-listed bidders to determine whether the technical bids are substantially responsive. Bids that are not substantially responsive are liable to be disqualified at Department's discretion.
2. The bidders' solutions proposed in the bid document will be evaluated as per the requirements specified in the RFP Scope of Work
3. Bidders shall present the proposal to Department
4. Each Bid will be assigned a Normalized technical score out of a maximum of 100 marks. Only the bidders who get an aggregate Technical score of 70% or more in TQ will qualify for commercial evaluation stage. Failing to secure minimum marks shall lead to technical rejection of the Bid and Bidder

Bidder should also score at least 65% in individual sections of Technical Evaluation as mentioned in Technical Evaluation Framework. Failure to score more than 65% in even one section will lead to Technical Disqualification of the bid

Table 8

S. No.	Evaluation Criteria	Score
1	Bidders' Experience	20
2	Quality of the proposed resources	50
3	Approach & Methodology & Understanding of the Scope	10
4	Presentation and Demonstration	10
5	Innovation and Best Practices proposed	10
	Grand Total	100

10.4.1 Pre-Qualification Evaluation

10.4.1.1 Pre-Qualification Bid Covering Letter

<Location, Date>

To,

The Under Secretary (CA-V), Crops Division,
The Department of Agriculture, Cooperation & Farmers Welfare,
Ministry of Agriculture & Farmers Welfare,
Government of India,
Krishi Bhawan,
New Delhi

Subject: Submission of the Pre-Qualification Bid for <Name of the bid>

Dear Sir/Madam,

We, the undersigned, offer to provide Impact Evaluation Consulting services to DAC FW with reference to your Request for Proposal dated <insert date> and our Proposal. We are hereby submitting our Pre-qualification bid.

We hereby declare that all the information and statements made in this Pre-qualification bid are true and accept that any misinterpretation contained in it may lead to our disqualification.

We agree to abide by all the terms and conditions of all the volumes of this RFP document. We would hold the terms of our proposal valid for the number of days as stipulated in the RFP document.

Yours sincerely,

(Authorised Signatory)

10.4.2 Technical Evaluation

10.4.2.1 Technical Bid Covering Letter

To,

The Under Secretary (CA-V), Crops Division,
The Department of Agriculture, Cooperation & Farmers Welfare,
Ministry of Agriculture & Farmers Welfare,
Government of India,
Krishi Bhawan,
New Delhi

Subject: Submission of the Technical bid for “<Name of the RFP>”

Dear Sir/Madam,

We, the undersigned, offer to provide Impact Evaluation services to DAC FW with reference to your Request for Proposal dated <insert date> and our Proposal. We are hereby submitting our Proposal, which includes Pre-qualification proposal, Technical proposal and the Commercial Proposal sealed in a separate envelope.

We hereby declare that all the information and statements made in this Technical proposal are true and accept that any misinterpretation contained in it may lead to our disqualification.

We agree to abide by all the terms and conditions of all the volumes of this RFP document. We would hold the terms of our proposal valid for the number of days as stipulated in the RFP document.

We understand you are not bound to accept any Proposal you receive.

Yours sincerely,

(Authorised Signatory)

10.4.3 Commercial Evaluation

10.4.3.1 Commercial Bid Covering Letter

Dear Sir/Madam,

We, the undersigned, offer to provide the services for the assignment/job for Impact Evaluation of Centrally Sponsored Scheme (CSS) – Bringing Green Revolution in Eastern India (BGREI) implemented during the year **2015-16 to 2019-20** in accordance with your Request for Proposal dated **<dated>**. Our attached Financial Proposal is for the sum of [Insert amount(s) in words and figures]. This amount is inclusive of all taxes and duties. We hereby confirm that the financial proposal is unconditional and we acknowledge that any condition attached to financial proposal shall result in rejection of our financial proposal.

Our Financial Proposal shall be binding upon us subject to the modifications resulting from Contract negotiations, up to expiration of the validity period of the Proposal, i.e., before the date indicated in the Data Sheet in Section 3.

We understand you are not bound to accept any Proposal you receive.

Yours sincerely,
